## Contents

VOLUME 33 NUMBER 1

3 *R. K. S. Wood*. Establishment of infection

13 *D. H. Lapwood, P. J. Read and Janis Spokes*. Methods for assessing the susceptibility of potato tubers of different cultivars to rotting by *Erwinia carotovora* subspecies *atroseptica* and *carotovora*

21 *S. A. Hill and Elizabeth A. Jackson*. An investigation of the reliability of ELISA as a practical test for detecting potato leaf roll virus and potato virus Y in tubers

27 *Z. U. R. Javed*. Control of benomyl-resistant strains of *Colletotrichum coffeanum*, the cause of coffee berry disease

33 *A. G. Whitehead*. Interaction of three lucerne cultivars and eleven English isolates of stem nematode (*Ditylenchus dipsaci*), 'lucerne race'

39 *G. W. F. Sewell and J. F. Wilson*. The nature and distribution of *Verticillium albo-atrum* strains highly pathogenic to the hop

53 *J. M. S. Forrest and M. S. Phillips*. The effect of continuous rearing of a population of *Globodera pallida* (Pa 2) on susceptible or partially resistant potatoes

57 *L. R. Wardlow and A. W. Jackson*. Comparison of laboratory methods for assessing numbers of apple rust mite (*Aculus schlechtendali*) overwintering on apple

61 *R. L. Wastie*. Inoculating plant material by jet injection

65 *D. W. Hollomon*. A laboratory assay to determine the sensitivity of *Rhynchosporium secalis* to the fungicide triadimenol

71 *Ann Parker and J. P. Blakeman*. Nutritional factors affecting the behaviour of *Uromyces viciae-fabae* uredospores on broad bean leaves

81 *A. J. McGregor*. Comparison of cuprous oxide and metalaxyl with mixtures of these fungicides for the control of *Phytophthora* pod rot of cocoa

89 *K. M. Chin and M. S. Wolfe*. The spread of *Erysiphe graminis* f. sp. *hordei* in mixtures of barley varieties

101 *M. C. Brown, G. S. Taylor and H. A. S. Epton*. Carbendazim resistance in the eyespot pathogen *Pseudocecosporella herpotrichoides*

113 *A. G. Channon and R. Hissett*. The incidence of bacterial wilt caused by *Xanthomonas campestris* pv *graminis* in pasture grasses in the West of Scotland

123 *M. J. C. Asher and C. E. Thomas*. Components of partial resistance to *Erysiphe graminis* in spring barley

**New or unusual records**

131 *G. M. Kairu, C. M. S. Nyangena, Z. U. R. Javed and J. E. Crosse*. Iatrogenic effects of captafol on bacterial blight of coffee

133 *C. M. Port and N. French*. Damage to spring barley by larvae of *Dilophus febrilis* (L.) (Bibionidae: Diptera)

135 *N. J. Bradshaw*. *Septoria cucurbitacearum* on courgettes – a new British record

137 Book reviews

VOLUME 33 NUMBER 2

141 Honorary Membership of the Society

**Letter to the Editor**

145 *J. P. Hollis (Jr).* The Horsfall-Barratt Grading System

147 *K. Hall and J. A. Kavanagh*. Laboratory studies on the growth and reproduction of *Cladosporium allii-cepae*, the cause of leaf blotch of onion

155 *B. J. Thomas.* Rose mosaic disease: symptoms induced in roses by graft inoculation with both prunus necrotic ringspot and apple mosaic viruses

161 *K. M. Chin, M. S. Wolfe and P. N. Minchin*. Host-mediated interactions between pathogen genotypes

173 *D. I. Skidmore, R. C. Shattock and D. S. Shaw*. Oospores in cultures of *Phytophthora infestans* resulting from selfing induced by the presence of *P. drechsleri* isolated from blighted potato foliage

185 *K. W. Bailiss and S. Senananyake*. Virus infection and reproductive losses in faba bean (*Vicia faba* L.)

193 *A. J. Lyshol, L. Semb and G. Taksdal.* Reduction of cavity spot and root dieback in carrots by fungicide applications

199 *G. Esler and J. R. Coley-Smith*. Resistance in *Sclerotium cepivorum* in *Allium* and other genera

205 *Pamela L. Newman*. Differential host-parasite interactions between oilseed rape and *Leptosphaeria maculans*, the causal fungus of stem canker

211 *G. P. Bevercombe and A. D. M. Rayner*. Population structure of *Cryptostroma corticale*, the causal fungus of sooty bark disease of sycamore

219 *M. O. Idris and S. L. Ball*. Inter- and intracontinental sexual compatibility in *Sclerospora graminicola*

225 *B. Woolacott and S. A. Archer*. The influence of the primary germ tube on infection of barley by *Erysiphe graminis* f. sp. *hordei*

223 *D. W. Holden and R. N. Strange*. Biochemical characteristics of sporelings of *Puccinia graminis* f. sp. *tritici* and protoplasts from wheat isolines of potential significance in specificity

245 *W. Y. Chen and E. Echandi*. Effects of avirulent bacteriocin-producing strains of *Pseudomonas solanacearum* on the control of bacterial wilt of tobacco

255 *P. R. Massalski and J. I. Cooper*. The location of virus-like particles in the male gametophyte of birch, walnut and cherry naturally infected with cherry leaf roll virus and its relevance to vertical transmission of the virus

263 *R. B. Maude, M. R. Shipway, A. H. Presly and D. O'Connor*. The effects of direct harvesting and drying systems on the incidence and control of neck rot (*Botrytis allii*) in onions

**New or unusual records**

269 *C. T. Guile*. Damage to rhubarb (*Rheum rhaponticum* L.) and Virginia creeper (*Parthenocissus quinquefolia* (L.) Planch.) by dock beetle (*Gastrophysa viridula* Degeer)

271 Book reviews

VOLUME 33 NUMBER 3

279 *Fiona G. A. Bennett*. Resistance to powdery mildew in wheat: a review of its use in agriculture and breeding programmes

301 *R. W. Michelmore, J. M. Norwood, D. S. Ingram, I. R. Crute and P. Nicholson*. The inheritance of virulence in *Bremia lactucae* to match resistance factors 3, 4, 5, 6, 8, 9, 10 and 11 in lettuce (*Lactuca sativa*)

317 *P. M. Kirk and J. G. Crompton*. Pathology and taxonomy of *Caldosporium* leaf blotch of onion (*Allium cepa*) and leek (*A. porrum*)

325 *M. M. Burrell*. Inhibition of browning, phenoxyacetic acids and phenolic metabolism in potato tuber discs: a model system to study chemicals that control common scab

337 *P. L. Guy, J. L. Dale, M. A. Adena and A. J. Gibbs*. A taxonomic study of the host range of tymoviruses

347 *S. J. I. Holmes and A. G. Channon*. Studies on metalaxyl-resistant *Phytophthora infestans* in potato crops in south-west Scotland

355 *G. C. MacNish*. The use of undisturbed soil cores to study methods of controlling rhizoctonia patch of cereals

361 *D. Baulcombe, R. B. Flavell, R. E. Boulton and G. J. Jellis*. The sensitivity and specificity of a rapid nucleic acid hybridization method for the detection of potato virus X in crude sap samples

371 *H. S. S. Sharma*. Assessment of the reaction of some spring barley cultivars to *Pyrenophora teres* using whole plants, detached leaves and toxin bioassay

377 *D. C. Sutton and B. J. Deverall*. Phytoalexin accumulation during infection of bean and soybean by ascospores and mycelium of *Sclerotinia sclerotiorum*

385 *Judith M. Norwood and I. R. Crute*. The genetic control and expression of specificity in *Bremia lactucae* (lettuce downy mildew)

401 *Alison Stewart and J. W. Mansfield*. Fungal development and plant response in detached onion bulb scales and leaves inoculated with *Botrytis allii, B. cinerea, B. fabae* and *B. squamosa*

411 *M. El-Khadem and G. C. Papavizas*. Effect of the herbicides EPTC and linuron on cotton diseases caused by *Rhizoctonia solani* and *Fusarium oxysporum* f. sp. *vasinfectum*

417 *J. V. Cross*. Biological control of two-spotted spider mite (*Tetranychus urticae*) by *Phytoseiulus persimilis* on strawberries grown in 'walk-in' plastic tunnels, and a simplified method of spider mite population assessment

**New or unusual records**

425 *N. Katis and R. W. Gibson*. Transmission of beet mosaic virus by cereal aphids

429 *A. M. Abdel-Rahim. Phoma sorghina* causing a leaf spot of water hyacinth in the Sudan

431 *Pipob Lumyong, R. Black and Bunjerd Inwang. Embellisia abundans* causing leaf spot of highland-grown Brussels sprouts in Northern Thailand

435 *S. E. Adams, R. A. C. Jones and R. H. A. Coutts*. Occurrence of resistance-breaking strains of potato virus X in potato stocks in England and Wales

439 *A. R. Chase. Xanthomonas campestris* pv. *hederae* causes a leaf spot of five species of Araliaceae

441 *D. Parfitt, J. R. Coley-Smith and T. McHale. Laterispora brevirama* on sclerotia of *Sclerotinia*

445 Book reviews

VOLUME 33 NUMBER 4

451 *M. S. Wolfe*. Trying to understand and control powdery mildew

467 *J. E. Winch, F. J. Newhook, G. V. H. Jackson and J. S. Cole*. Studies of *Colletotrichum gloeosporioides* disease on yam, *Dioscorea alata*, in Solomon Islands

479 *Sunietha Randombage and J. M. R. S. Bandara*. Little leaf disease of *Piper nigrum* in Sri Lanka

483 *P. F. S. Street and R. M. Cooper*. Quantitative measurement of vascular flow in petioles of healthy and *Verticillium*-infected tomato

493 *Alison J. Wright and J. B. Heale*. Adult plant resistance to powdery mildew (*Erysiphe graminis*) in three barley cultivars

503 *M. N. Pearson and Sheila M. Robb*. The occurrence and effects of barley yellow dwarf virus in maize in SW England

513 *M. J. Hims, C. H. Dickinson and J. T. Fletcher*. Control of red thread, a disease of grasses caused by *Laetisaria fuciformis*

517 *M. J. Jeger*. Relating disease progress to cumulative numbers of trapped spores: apple powdery mildew and scab epidemics in sprayed and unsprayed orchard plots

525 *R. B. Maude, F. M. Humpherson-Jones and Catriona G. Shuring*. Treatments to control *Phoma* and *Alternaria* infections of brassica seeds

535 *K. M. Chin and M. S. Wolfe*. Selection on *Erysiphe graminis* in pure and mixed stands of barley

547 *V. W. L. Jordan and Elizabeth C. Allen*. Barley net blotch: influence of straw disposal and cultivation methods on inoculum potential, and on incidence and severity of autumn disease

561 *N. D. Paul and P. G. Ayres*. Effects of rust and post-infection drought on photosynthesis, growth and water relations in groundsel

571 *A. H. Presly*. Retention of iprodione on salad onion leaves in relation to the control of *Botrytis* spp.

**New or unusual records**

581 *R. G. T. Hicks and R. R. Frost*. Isolation of a tobamorvirus from rose

589 *J. J. Muchovej and H. B. Couch. Marasmius graminum*, a colonizer of senescent leaves of Kentucky bluegrass (*Poa pratensis*)

591 *Daphne M. Wright, Carolyne Le Cuirot and S. A. Hill*. Identification of Zucchini Yellow Mosaic Virus from courgettes in Jersey by immune electron microscopy

595 *R. A. C. Jones and Nicola J. Fuller*. Incidence of potato virus V in potato stocks in England and Wales

599 *P. Jones, A. J. Cockbain and S. O. Freigoun*. Association of a mycoplasma-like organism with broad bean phyllody in the Sudan

603 *A. R. McCracken. Pythium paroecandrum* associated with a root-rot of parsley

605 *D. G. Christian and D. P. Miller. Cephalosporium* stripe in winter wheat grown after different methods of straw disposal

607 Book reviews
